

Introducing the *NEW* Heavy-Duty 60lb Wheeled Sign Base from TCT

Model: SB-60W-HD

Introducing the newest addition to the TCT recycled rubber sign base collection: the **Heavy Duty 60lb Sign Base with Wheels**. After months of development and testing, TCT has taken their original 60lb. sign base and modified it to be better for heavy construction areas or other high-traffic areas. The heavy duty recycled rubber base remains compatible with both U-channel and PVC sign posts.

Improvements include:

- Durable 5" diameter solid rubber wheels with a full product width ½" diameter steel axle
- 16" wheel separation for added stability and ease of movement
- Base size of 21" x 20" x 5" in a modified circle provides for increased sign stability when in use
- Custom embossed logos quoted upon request
- Individual box packing options

Interested in adding TCT's new redesigned sign base to your catalog? Contact Rodney LaPage at (518) 879-5417 or feel free to email RLapage@tire-conversion.com. Visit us online at tire-conversion.com to see our full product catalog.
