

PORTABLE SPEED BUMP :: PSB-118

When working in a temporary construction zone it is important to make sure that both workers and drivers are safe. TCT's portable speed bump is designed to be used temporarily wherever there might be a need to slow down traffic. The portable speed bump is easily set up and then folded away when it's not in use. The portable speed bumps also comes with a handy carrying bag for transportation and storage. The portable speed bump alternates yellow and black sections, has reflective arrows indicating the bump to motorists, and features a textured top surface for traction in poor conditions.
