

## SIGN BASE WHEELS :: SBW

Signs are necessary for communicating to both pedestrians and drivers about their surroundings. Whether temporary or permanent, molded rubber sign base systems from TCT are a perfect solution for increasing vehicle and pedestrian safety. Sign base systems are ideal for parking lots, crosswalks, guard booths, malls, industrial or construction sites, or anywhere else portable signs might be needed. The sign bases are designed to withstand high winds and extreme weather conditions, making them perfect for outdoor use throughout the year. They will not break down or corrode after being exposed to the elements. Our sign bases are environmentally friendly and made out of recycled tire rubber.

### FEATURES

- Wheel set to convert regular 30 lb. sign base to wheeled version
- Ideal for indoor or outdoor use
- Easy to Install
- Easily move wheeled sign base versions to various locations instead of picking them up entirely

### SPECIFICATIONS

- Replacement wheels for SB-30W, or SB-60W
- Can also convert an SB-30 to wheeled version
- Sold in sets of 2
- (2) Plastic inserts - Pre drill holes with 13/64" drill bit, 2" deep, push in until flush with end of plastic insert
- (2) Wheels / Casters - Push wheel fully into insert until it clicks, it will now swivel without coming out
