SB-30A Sign Base

SB-30A

Signs are necessary for communicating to both pedestrians and drivers about their surroundings. Whether temporary or permanent, molded rubber sign base systems from TCT are a perfect solution for increasing vehicle and pedestrian safety. Ideal for parking lots, crosswalks, guard booths, malls, industrial and construction sites, or anywhere else portable signs might be needed. Our sign bases are designed to withstand high winds and extreme weather conditions, making them perfect for outdoor use throughout the year. They will not break down or corrode after being exposed to the elements, are environmentally friendly and made from recycled tire rubber.

Features

Made of recycled tire rubber
Ideal for adding to an existing base for increased stability in areas with strong winds or intense weather
Able to withstand extreme temperatures without cracking or drying out
Can be used in both indoor and outdoor settings
Easy to move and maintain

Specifications
