Heavy-Duty 60lb Wheeled Sign Base

SB-60W-HD

Portable sign base systems are ideal for parking lots, crosswalks, guard booths, malls, industrial or construction sites. The sign bases are designed to withstand high winds and extreme weather conditions, making them perfect for outdoor use throughout the year. Our sign bases are environmentally friendly and made out of recycled tire rubber.

Features

| |
|--|
| Made of recycled tire rubber |
| Ideal for use in construction zones, parking lots or areas with heavy traffic |
| Able to withstand extreme temperatures without cracking or drying out |
