PSB-118 Portable Speed Bump

PSB-118

When working in a temporary construction zone it is important to make sure that both workers and drivers are safe. TCT's portable speed bump is designed to be used temporarily wherever there might be a need to slow down traffic. The portable speed bump is easily set up and then folded away when it's not in use. The portable speed bumps also comes with a handy carrying bag for transportation and storage. The portable speed bump alternates yellow and black sections, has reflective arrows indicating the bump to motorists, and features a textured top surface for traction in poor conditions.

Features

Made of rigid, molded rubber
Easily folded to fit into included nylon carrying case
Ideal for outdoor use
Able to withstand extreme temperatures without cracking or falling apart
Top of speed bump is grooved for traction in poor weather
Handle grip on each end makes moving easy
Reflective arrows on each side alert motorists
